Who We Are

We help your organization improve your work in a way that is good for your financials, customers, employees, environment and the community.
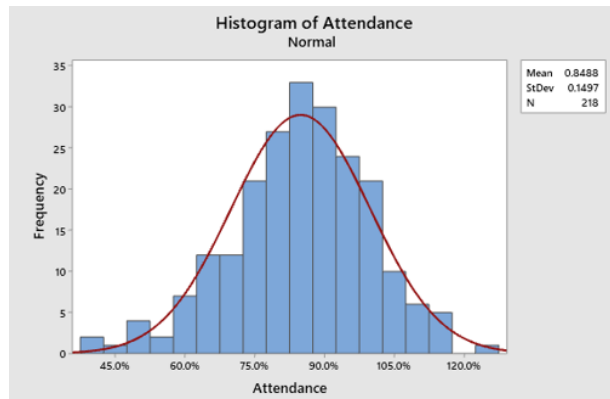

We help you make your work:
- simpler
- streamlined
- sustainable
- less frustrating
- with higher quality

Your team becomes more engaged, which becomes evident to your customers and stakeholders, which leads to better customer performance.

Business Performance Improvement

Helping businesses and organizations achieve "triple bottom line" performance using Lean and Six Sigma

We help your organization reduce:
- Employee Turnover
- Customer Complaints
- Expenses and Cash Flow
- Stress and Overwhelm
- Environmental Impacts

We accomplish this by:
- **Teaching** your team to be self-sufficient
- **Facilitating** Improvement/Kaizen Events
- Leading Six Sigma **Improvement Projects**
- **Coaching/Mentoring** your team
- Improvement **Program Development**
- Lean Six Sigma **Certification** Support

Getting Started
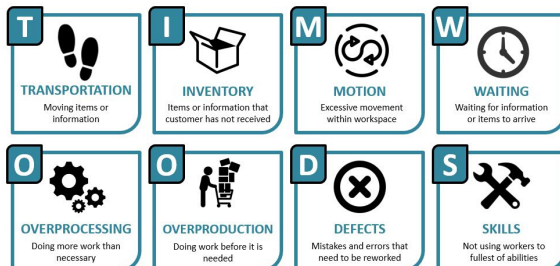

Online training course

- Our "Lean Six Sigma and the Environment" course is geared for those new to Lean Six Sigma, and those looking to apply their skills to environmental issues, and it's **FREE**!

Coaching call

- Not sure how we can help? Let's jump on a **FREE** call and discuss.

- Want to have ongoing calls to keep you on track, or get advice and coaching on how to implement Lean Six Sigma in your organization? We can develop a plan for your budget.

Downloads

- We have FREE files and templates you can download on our site.

- Our more advanced templates and white label courses cost money, but are cost-effective and save you time.

Training

Classroom and Online Workshops (3 hours each)

- Intro to Lean and Six Sigma
- Lean and Green
- 5S Workplace Organization
- Personal Lean
- Statistical Process Control (SPC)
- Capability Analysis (Cpk/Ppk)
- Variable and Attribute Gage R&R
- Regression and ANOVA
- Design of Experiments (DOE)
- Value Stream Mapping (VSM)
- Kaizen Events
- Standardized Work
- Lean Startup
- Minitab Statistical Software
- Personal Kanban
- Daily Management System
- And many more…

Certification

- Achieve a Lean or Six Sigma certification (White, Yellow, Green, Black or Master Black Belt levels) through us, or we support you through other certification programs

- We can help you customize your own internal certification program.

Execution

Projects and Event Facilitation

- We help you solve specific problems that are impacting your organization related to quality, inventory, customer response time, employee engagement, variation reduction, expenses, management systems and more!

- We'll help you to figure out what approach will work best, either a kaizen event, Six Sigma project or working with your team on a recurring basis.

Strategy

- We help design a training and engagement program customized to your current maturity, industry, culture and leadership team

- We assist you as much as you want, from monthly check-ins to part-time support during the kickoff phase.
